

Abdlmoneim Nasrldein

Mechanical Engineer – Food Processing & Industrial Equipment
Cairo, Egypt
+20 100 054 1884
abdlmoneimnasr@gmail.com

PROFESSIONAL SUMMARY

Mechanical Engineer specialized in food processing and poultry slaughterhouse equipment with over 5 years of hands-on experience in designing, fabricating, and installing complete production lines. Strong expertise in stainless steel fabrication, hygienic equipment design, conveyor systems integration, and on-site commissioning. Experienced in managing fabrication teams and delivering industrial projects from concept to startup while ensuring operational efficiency and reliability.

PROFESSIONAL EXPERIENCE

PROJECT ENGINEER

Aug 2024 - present

EL-NASR FOR POULTRY EQU. - EGYPT

- Tailor machinery to meet client needs.
- Improve product portfolio for better efficiency.
- Provide technical support to sales and project teams.

Mechanical Engineer

Dec 2020 – Aug 2024

IMES FOR POULTRY EQU. - EGYPT

- Designed and supervised fabrication of complete poultry slaughterhouse production lines.
- Developed equipment layouts optimized for workflow efficiency and hygiene standards.
- Supervised stainless steel fabrication and mechanical assembly processes.
- Managed on-site installation and commissioning of processing equipment.
- Coordinated with clients during startup phase and resolved technical issues.
- Ensured smooth integration between mechanical systems, conveyors, and support structures.

Core Competencies

Technical Skills

- Food Processing Equipment Design
 - Poultry Slaughterhouse Systems
 - Hygienic & Stainless Steel Equipment Fabrication
 - Production Line Layout & Integration
 - Mechanical Installation & Commissioning
 - Preventive & Corrective Maintenance
 - Technical Documentation & Drawings
- SolidWorks & AutoCAD
 - Basic CFD Analysis (ANSYS)
 - Sheet Metal Design
 - Conveyor & Mechanical Systems
 - Industrial Equipment Installation
 - Mechanical Troubleshooting
 - Basic Control Systems Knowledge

Software Skills

- SolidWorks (sheet metal – Surfaces – Weldment – simulation)
- ANSYS (FLUENT – CFX)
- AUTOCAD
- REVIT (MEP – DYNAMO)
- MICROSOFT OFFICE

Education

Languages

B.Sc. in Power Mechanical Engineering
Zagazig University – 2019
Grade: Very Good (B+)

Arabic: Native
English: Professional Working Proficiency

PROJECTS

- **ATYAB** **ISMAILYA POULTRY**
 - Manufactured and installed a slaughter line and air-chiller system for a poultry processing with a capacity of 6,000 birds per hour.
- **KOKO SHAMA** **NEW DAMEITTA POULTRY**
 - Increased slaughter line capacity to 3,000 birds per hour, performed regular maintenance, and manufactured necessary spare parts.
- **ROSTI** **UNITED POULTRY**
 - Supplied and manufactured required spare parts.
- **TEMRY** **DAKAHLYA POULTRY**
 - Manufactured Corner Wheels for the air-Chiller line, spare parts for evisceration line, with a capacity of 8,000 birds per hour
- **ELBANAA** **ELBANNA GROUP**
 - Maintained the scalding conveyor and manufactured necessary spare parts for a 3,000 birds/hour line
- **ROMY** **ALAA ELDIEN POULTRY**
 - Installed lung suction system (Pump-Tanks-Guns) , manufactured necessary spare parts for a 3,000 birds/hour line.
- **MOI** **MINISTRY OF INTERIOR**
 - Fully manufactured, installed, and commissioned four semi-automatic slaughterhouses with a capacity of 3,000 birds per hour each.

PORTFOLIO HIGHLIGHTS

Highlight reel of my major achievements in slaughterhouse design, manufacturing, and installation.
